4/16/2026 18:31:26	Poly Pages (Formerly Note Sharer)	3	4	4	4	4	I liked the idea of having random names and also the idea of needing to submit your own PDFs to unlock things.	I would definitely add something regarding teachers or incentive to upload "more important" items, etc.
4/17/2026 8:08:31	Poly Pages (Formerly Note Sharer)	2	3	4	4	3	Functionality seems great	UI doesn't look awesome. It looks like pretty much any vibe coded site, not unique
